To do list React app
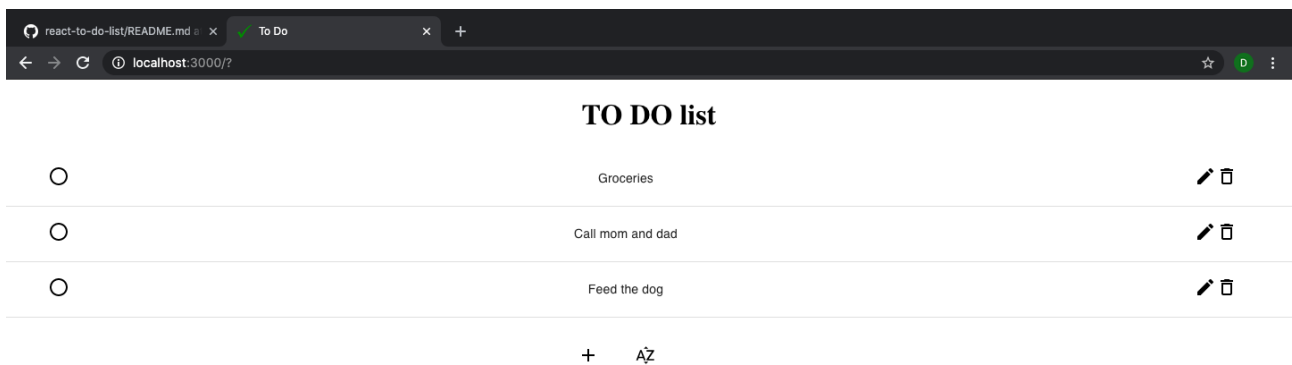

Running commands

git clone https://github.com/doinamihailov/react-to-do-list.git
cd react-to-do-list
npm install
npm start

The main look

The app shows a list with tasks. Once a task is completed, the user can check it by clicking on the check icon, and uncheck it after, also by clicking on the icon.

By clicking on the 'add' icon + , an input text will pop, in order for the user to add a new task to the list.

The user will input the task and he can save or cancel the action.

Feed the dog

Clean the bathroom ♡ ✕

+ A̤Z

By clicking the 'Save' button the task will be saved in the list. By clicking the 'Cancel'

♡ ✕

button, the action will be canceled.

TO DO list

○	Groceries	✏ 🗑
⊘	Call mom and dad	✏ 🗑
○	Feed the dog	✏ 🗑
○	Clean the bathroom	✏ 🗑

+ A̤Z

For each task, we can do two separate things: edit and delete.

✏ 🗑

When clicking on the delete button, the task will be removed from the list.

The edit button will open an input box that will allow the user to modify the task.

TO DO list

| ⊘	Call mom and dad	✏ 🗑
○	Feed the dog ♡ ✕	✏ 🗑
○	Clean the bathroom	✏ 🗑

+ A̤Z

The input box is resizable. If the user drags the right down corner, he can make it bigger or smaller.

TO DO list

✓		Call mom and dad	✎ 🗑
○	Feed the dog	♡ ✕	✎ 🗑
○		Clean the bathroom	✎ 🗑

＋ ȦZ

He can save the changes or cancel the action.
